

## THREE-MILE PARADE FEATURE OF CIRCUS

Street Spectacle of Barnum & Bailey Shows Said to Have Cost \$1,000,000.

The Barnum & Bailey "greatest show on earth" will present in Salt Lake City next Saturday the greatest street parade in the history of the American circus. It will be in no way similar to the parades of the past. It is three miles in length. It cost the management \$1,000,000.

With the advantage of many years spent in touring all the civilized countries of the world where this circus is as well known as in America, Barnum & Bailey's many agents have been constantly gathering the materials to be used in this year's street spectacle. Remote savage lands have been ransacked. Artists and designers from France and Italy have worked out the designs and ideas. Day and night for two years mechanics and property builders have toiled in foreign workshops, executing these ideas. There has been no regard of the cost.

All strange types of the human family are found in the procession, together with their characteristic costumes, weapons of war, vehicles, idols and music. Rich and fantastic wagons of state, gorgeous tableau floats, palanquins, richly draped howdahs, rolling thrones, chariots of fire and fairy vans have been made of the most expensive woods, carved by hand labor and burnished with pure gold. The harness is silver mounted. The laces are from Ireland. The silks and satins are from China and Japan. The rugs and tapestries are from Persia and Turkey.

The effect of all this wealth is dazzling. The equipment is more gorgeous by far than anything of its nature exhibited in past seasons. The parade is said to be three times longer than any other. It cost ten times as much money. It is a congress of nations, a horse fair, a musical convention, a zoological garden on wheels, a fairyland carnival and an academy of science, all rolled into one panorama.

A trip to the grounds is like a tour of the world, without the annoyance of sickness. The great sea of canvas spreads out over fourteen acres of ground. In the stables are 700 of the finest horses that money can buy. In the menageries are 1200 animals. Among them is the only baby giraffe in America. This single exhibit is worth more than the average circus. On the grounds is a dynamo plant, furnishing power for twenty different shops and supplying current for 7000 incandescent lamps, lighting area, beacons and searchlights.

The best talent of the world has been selected to give the performance under the main tent. There are 400 artists. Among the foremost features are Katie Sandwina, the strongest and

**AEROPLANES SCARE GAME FROM FORESTS**

Special Cable to The Tribune. PARIS, Aug. 24.—The minister of agriculture has received, in connection with the opening of the shooting season, a report from a forester which throws a curious light on the instinct of quails and partridges. There has been in the district of the minister's correspondence continued complaint about the increasing rarity of game. The forester instituted an inquiry, and established the fact that game decreased wherever aeroplanes were established. This year, however, there is no ground for complaint. Partridges and quail are as plentiful as ever. The inference is drawn by the forester that the birds, when accustomed to aeroplanes, took them to be some strange winged beasts of prey, and prudently decamped from their vicinity. Reasoned now, as to the harmlessness of these new denizens of the air, they have returned to their old haunts. Their instinct has merely taken them out of the shall we say—the frying pan into the fire.

Dr. C. H. Ellsworth, dentist, 16 Baldwin St., Rochester, N. Y., says Foley Kidney Pills gave him immediate relief and strengthened him wonderfully. "I have been bothered with weak kidneys and bladder trouble and suffered much pain. Foley Kidney Pills gave me immediate relief and strengthened me wonderfully. I am pleased to recommend their use." Schramm-Johnson, Drugs.

Menagerie in Home. Special Cable to The Tribune. PARIS, Aug. 24.—For some time the commissary of police in the quarter of the Bourse had been receiving complaints from the tenants of a house in the Rue Richelieu that the occupants of the fifth floor kept them awake by imitating the sounds of different animals. The proper place for the exercise of such talents, they held, was the stage, and not a reputable dwelling, where everyone went to bed. The law moved at last, and the inquiries of the commissary discovered a ventriloquist with a distorted idea of humor, but a veritable menagerie.

In fact, the tenant of the fifth floor was an explorer but lately returned from the Congo, who, no doubt, to amuse his nostalgic life in the life of the wilds, had installed in his rooms several lion cubs and a number of apes, parrots, badgers and snakes. He has been requested to transfer his miniature menagerie elsewhere.
